

# SIBBM 2014

## Frontiers in Molecular Biology

Emerging Arenas in Molecular Biology:  
from basic mechanisms  
to personalized medicine

**Trento, 11-13 June**

**Local Organisers** Anna Cereseto · Michela Denti · Paolo Macchi

### Topics

Molecular trafficking  
Chromatin plasticity, transcription and translational control  
Molecular biology for personalised medicine  
Molecular Medicine: towards therapy

### Speakers

Stefano Biffo, *San Raffaele Scientific Institute, Milan, Italy*  
Tiziana Bonaldi, *IEO Milan, Italy*  
Irene Bozzoni, *Sapienza University, Rome, Italy*  
Maria Carmo-Fonseca, *University of Lisbon, Portugal*  
Francesca Ciccarelli, *King's College London, UK*  
Michele Garfinkel, *EMBO*  
Mauro Giacca, *ICGEB Trieste, Italy*  
Fulvio Mavilio, *Genethon, Evry, France*  
Gunter Meister, *Universität Regensburg, Germany*  
Roberto Sitia, *San Raffaele Scientific Institute, Milan, Italy*  
Natalia Soshnikova, *IMB, Mainz, Germany*  
Giulio Superti-Furga, *CEMM, Vienna, Austria*  
Marino Zerial, *Max Planck Institute, Dresden, Germany*
